FOR IMMEDIATE RELEASE

Novus Health Systems Achieves HITRUST Risk-based, 2-year Certification to Manage Risk, Improve Security Posture, and Meet Compliance Requirements

Covina, California, August 1, 2022 – Novus Health Systems, a leading provider of Medi-Cal receivables tools and expertise, today announced the BillPro platform and Novus facilities have earned Certified status for information security by HITRUST.

HITRUST Risk-based, 2-year (r2) Certified status demonstrates that the organization's BillPro platform and facilities have met key regulations and industry-defined requirements and the company is appropriately managing risk. This achievement places Novus in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards, and frameworks, and incorporating a risk-based approach, the HITRUST Assurance Program helps organizations address security and data protection challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

"In today's ever-changing threat landscape, HITRUST is continually innovating to find new and creative approaches to address challenges," said Jeremy Huval, Chief Innovation Officer, HITRUST. "Novus' HITRUST Risk-based, 2-year Certification is evidence that they are at the forefront of industry best practices for information risk management and compliance."

About Novus Health Systems

Novus Health Systems leverages the knowledge and diverse experience of a team of professionals who focus on solving hospitals' Medi-Cal/Medicaid receivables issues.

The company offers subscription-based access to a proprietary suite of tools called BillPro which improve the efficiency and effectiveness of Medi-Cal/Medicaid billing and follow-up. Novus also has specialists in-house for providers who wish to outsource billing or follow-up of Medi-Cal/Medicaid receivables.
